

DEAR CBA PARENTS/GUARDIANS

Dear CBA Parents,

This month your child is studying the character word:

CHARISMA. They will learn that charisma means: To have a magnetic personality. Throughout this month, we will teach your child about charisma through mat chats, and drills. We will also work on personal project in which your child draws a picture and utilizes charisma to explain the picture.

Definition: Having a magnetic personality

Synonyms: allure, dazzle, entertain, charm

Famous quotes on teamwork:

"Charisma is the transfer of enthusiasm from one person to another"

- Ralph Archbold

You can help by reinforcing Charisma at home. If you lead by example, your child will follow. Below are some tips on how to compliment the lessons we teach about charisma this month.

** Help your child improve his or her physical health. This includes eating right, and taking good care of his or her personal hygiene. When people feel good about themselves, it carries over when they interact with others.*

** Help your child become an avid reader. this will stimulate their intellect. After they read a book, ask them to explain what they read, and the lesson they learned from the story .*

** Carry yourself effectively. Demonstrate confidence yourself when you interact with others. Look them in the eyes, and smile a lot. Your children will model your behavior.*

Thank you for your support, and we look forward to watching our youthful students build the skill of charisma.

Here are some guidelines regarding children and charisma based on age:

* **With children ages 3 and 4;** they are typically afraid or intimidated when they meet new people. This means that your goal should be to teach them how to give a polite greeting, and also how to be polite with others.

* **With children ages 5 and 6;** they are starting to make best friends. This means that your goal should be to teach them how to be a good friend to others.

* **With children ages 7 to 9;** they are becoming less dependent on parents as more and more friendships form. This means that your goal should be to teach them how to be a good leader for their friends.

* **With children ages 10 and up;** they are starting to worry about other people's opinions. Teach them how to speak to other people in a positive manner so that they in return will be treated better. Charisma is a trait that one cannot do without. It does take practice and full attention to properly develop charisma. By introducing this word to your students, you will equip them with a foundation that they can build upon as they learn and grow. Help your students build charisma and the benefits will be immeasurable.
