

Vertical & raised wooden jigsaw Gardens

A Project By Grades 9 & 10

Goals For this Project

Roles

Group A: Designs- Shiloh and Tersoo: This group is in charge the planning and creation of the overall design

Group B: Materials and architecture- David and Abdullah: This group is in charge of mapping the area, and implementing the design department's sketches.

Group C: Plants and Logistics- Matthew: This group is in charge of finding plants, their growth methods, and their prices.

Materials

- 12 clay pots
- Ropes
- 5-7 Pans
- Wood
- 10 dispenser bottles (used)
- Nylon bags
- Assorted seedlings
- Oil paint (white, blue, green, yellow, orange, brown, red, purple, black)
- 2 Watering cans
- 2 trowels
- hand gloves

Plants

- Tomatoes
- Groundnuts
- Lettuce
- Cabbage
- Carrot
- Sunflowers
- Queen of the night
- Hibiscus

Execution

For this part of the project there will be separate designs for each wall. The First one will use the dispenser bottles, the second will use pans, and the last one will use flower pots. On the first wall we will plant lettuce. The second wall will have tomatoes, and the last wall will have sunflowers, hibiscus, and queen of the night.
